

ASSEMBLY BILL

No. 574

Introduced by Assembly Member Wolk

February 16, 2005

An act to add Chapter 13.5 (commencing with Section 22210) to Division 8 of the Business and Professions Code, relating to recycled concrete.

LEGISLATIVE COUNSEL'S DIGEST

AB 574, as introduced, Wolk. Recycled concrete.

Existing law requires the Department of Toxic Substances Control to adopt, by regulations, criteria and guidelines for the identification of hazardous waste. Existing law excludes from classification as a hazardous waste cementitious material that is a nonaqueous waste, is managed in a specified manner at the cement manufacturing facility where it was generated, and would otherwise be classified as a hazardous waste based solely on a specified test concerning the corrosivity of a waste.

This bill would authorize the use of recycled concrete, as defined, if the end user has been fully informed that the concrete is recycled concrete.

Vote: majority. Appropriation: no. Fiscal committee: no.
State-mandated local program: no.

The people of the State of California do enact as follows:

- 1 SECTION 1. Chapter 13.5 (commencing with Section 22210)
- 2 is added to Division 8 of the Business and Professions Code, to
- 3 read:

CHAPTER 13.5. RECYCLABLE CONCRETE

- 1
2
3 22210. (a) Recycled concrete, as defined in subdivision (b),
4 may be used if the end user has been fully informed that the
5 concrete is recycled concrete.
6 (b) As used in this section, “recycled concrete” means
7 concrete that is composed of any of the following:
8 (1) Up to 15 percent by volume of returned, liquid concrete.
9 (2) Up to 35 percent by weight of reclaimed water created by
10 the recycling and manufacturing process.
11 (3) Up to 30 percent of recovered or reprocessed aggregate.
12 (c) The use of reclaimed water that is in compliance with
13 ASTM C-94 shall not apply to this section.
